“ *My condolences to Andrea Chamel Morgan's Mother and Family. Andrea was my personal beautician. She was a wonderful person to sit and talk for hours with. She called me TT and would always ask my opinion on different things. I felt honored that she would not only ask for my help but actually listened and did what I suggested. We prayed together and fellowshiped together at "Greater Faith". She kept a smile on her face and that is how I will always remember her.*

Eventhough I only knew her for a few months we shared a lot of personal testimonies and life experiences with one another. Andrea often spoke of her love for her mom and thought the world of her. The last time I seen her we went shopping together. To me this is another clear example that you never put off tomorrow for what you can do today. We shouldn't take life for granted. Andrea was a great friend, she is truly missed.
