“ To Mom, Tangya, Byron, Yogi, Greg and family,
My heart gets full when I think about the times that Dad called me his other daughter. I will always remember the love he showed towards me whenever I was in his presence. Whether it was on the phone or in person we always had a connection! May his love and his life continue through you all. I love you all and will keep you in my prayers!

Many Blessings from your sister and other daughter!###imported-begin##L'Tanga###imported-end##
