“ *Thought there would always be tommorrow to see you or to call you. Took for granted that you were here. Miss you more than you would ever know and it hurts more than I can possibly put into words. I love you and I truly regret not telling you more. It will be hard passing your house and knowing that you are not there. Don't worry about your baby because we got her and we will make sure she is okay. RIP Auntie Nita. love your niece##imported-begin##your niece##imported-end##*
