Tribute Wall

“ Dear Family,

Eddie Patton was one of my father's oldest and dearest friends in Milwaukee, Albert Houston Jr. I last saw Eddie at my father's funeral in November I appreciate what Eddie has meant to our family as my father's friend. The "original days" of the Milwaukee Road and other fond memories are what I will remember most. Eddie was an influence on me directly at a time when I was between jobs by telling me to consider becoming a plumber, I actually took a test. It was his encouragement I remember most even though I never became a plumber, I work as an Electrical Systems Designer for ITT Sanitaire in Brown Deer, WI. I was sorry to hear of Eddie's death his funeral was on my birthday, 4/21/63. I would have attended had I known sooner I did not get the news until April 22nd. Eddie and Albert Jr., my father had both been sick the latter part of their lives respectively. Though the loss we suffer will seem great at times, know that there is no more suffering for the both of them. Let's pray that they meet at the Railroad in heaven and continue where they left off as friends. Please know that you have my deepest condolences.

Sincerely,

Albert Houston III
