“ It was a real honor to work with Larry the last several years up to his final days here on earth before the lord chose to bring Larry home. Larry even at his older age was a hard working and very reliable employee. It was a real treat to listen to some of Larry's stories from the early years. Larry would give us all a history lesson on things he used to do while working for the city before times advanced. Larry will be very missed. Rest in peace Larry.##imported-begin##Mike Maas - American Security ##imported-end##
