“ Shirley you and your family have been a part of my family for about 10 years. I have felt closer to the Bell's than my own family, especially during the holidays. I will always remember our trip to Wisconsin Dells and i will cherish all the Christmas's and Thanksgivings we shared at Jason and Christina's house, at my house, and at Chuck and Charese's house. You have always welcomed me and my kids into the family and I will never forget you, Shirley. You always made me laugh and you always had something nice to say to me and my kids. I am so hurt that you are gone, things just won't be the same. God must have saw your beauty and wanted to give you your pretty wings a little early. As you will be looking down on every one else, we all will be looking up to you, for one last smile and one more silly laugh. I love you Shirley Firley.
