“ To the family, my deepest condolences to you. And I pray, God give you strength to continue on to my friend. Although this is painful for the kids and I. We know God ease all pain, he did just that by given you're wings. To know him is to love him and you know , he would do anything for anyone, that's what I love about him. To my soulmate, to my friend to my co-worker, you would truly be missed and never forgotten.I love you. See you on the other side.
